

## Regular health checkups are important

They can help:

- Find and treat health problems early on
- Encourage healthy habits
- Give a chance to ask questions about your child's health and development

## Dental checkups are important too

- Dental coverage is part of your Medical Assistance
- Dental checkups are due every 6 months
- Your child's doctor will advise you to start dental checkups as soon as the first tooth appears, and no later than 12 months

## Who we are

Child and Teen Checkups is a preventive health care benefit for children under the age of 21 who are eligible for Medicaid.

**It's an automatic benefit, no need to enroll!**

## We help

- Find a medical or specialty clinic
- Find a dentist
- Schedule appointments
- Arrange transportation and interpreter services
- Connect families to community resources

Some families will receive this help through their clinics. Hennepin County Child and Teen Checkups will assist all families to find out where they can call for help.
